LANGUAGES

Javascript / NodeJS / Ruby / SQL / TS / HTML/CSS

SKILLS / FRAMEWORKS / TECHNOLOGIES

React / Express / Mongoose / Rails / ApiREST GraphQL / Jquery / Bootstrap / MySQL PostgreSQL / MongoDB / Version Control Docker

LATEST PROJECTS

- **DoggosPunk Nfts:** A Simple Nft minting website in the Ethereum rinkeby test network. I used Ethers.js to interact with Ethereum Blockchain and Solidity to build the smart-contract.
  Source / Demo: github.com/DoggosPunk

  - **Tech-Stack :**
    - React
    - EthersJS
    - Solidity
    - Hardhat
    - OpenZappelin

- **Metaverse-FC:** Utility-driven, MMA-inspired NFT game. MFC is an NFT-game that is driven by the problems in the current PFP-led NFT marketplace. MFC looks to meet the demand for utility NFTs with play-to-earn features.
  Source / Demo: github.com/metaverse-fc

  - **Tech-Stack :**
    - Sass
    - React / TypeScript
    - GraphQL / Apollo-server
    - NodeJs / Mongoose
    - MongoDB

- **Unleashed:** An application that allows users to organise a walk for their pets, while tracking the route of the walker and pet.
  Source / Demo: github.com/unleashed

  - **Tech-Stack :**
    - Sass
    - React
    - Ruby On Rails / ApiRest
    - PostgreSQL

- **Trading Journal:** A simple crypto trading tracker that also allows you to add personalised notes to each transaction to learn and improve your trading skills.
  Source / Demo: github.com/trading-journal

  - **Tech-Stack :**
    - Bootstrap
    - VanillaJS
    - Ruby On Rails
    - PostgreSQL

- **Tic Tac Toe with unbeatable AI:** A variation of the classic game Tic Tac Toe, where you can also change the size of the board, play 1 v 1, and/or against an AI.
  Source / Demo: github.com/tic-tac-toe-ai

  - **Tech-Stack :**
    - HTML / CSS
    - VanillaJS

RELEVANT EXPERIENCE

Ecosophist PTY - LTD
JAN 2020 - APR 2020 - Freelance Project
Front-end Developer

- Added custom functionalities to their Shopify store and redesigned custom web mark-up, plus making the website totally responsive.
